*This fascinating book by best-selling author, psychologist, and medical anthropologist Alberto Villoldo explains the practices for healing outside of ordinary time and space. It shows you how to enter the timeless now to heal events that occurred in the past, and to correct the course of destiny. Dr. Villoldo discusses ways in which you can heal yourself and your loved ones by employing intention through practices used by shamans of the Americas—which, until now, have been inaccessible to most of the world. The shamans of old called this journeying. In this book, you’ll discover that you have a four-chambered heart in the same way you have a four-chambered soul. In the first chamber, you store away the memory of a wound that derailed your destiny. In the second, you keep the limiting beliefs and soul contracts that you entered into at the time of your loss. In the third, you recover the grace and trust that will make you whole again; and in the fourth, you remember the calling and mission that you choose to unfold in this lifetime. While everyone has a future, Villoldo says, “only certain people have a destiny.” This book shows you how to find and manifest yours.*
