3.1 Assignment of Patents. Upon the Closing, Seller hereby sells, assigns, transfers, and conveys to Buyer, or shall have caused its Affiliates to sell, assign, transfer and convey to Buyer, all of its right, title, and interest in and to the Patents.

3.2 Assignment of Additional Rights. Upon the Closing, Seller hereby also sells, assigns, transfers, and conveys to Buyer, or shall have caused its Affiliates to sell, assign, transfer and convey to Buyer, all of its right, title and interest in and to all causes of action (whether known or unknown or whether currently pending, filed, or otherwise) and its other enforcement rights under, or on account of, any of the Patents described in Section 3.1, including, without limitation, all of its causes of action and other enforcement rights for (i) damages, (ii) injunctive relief, (iii) any other remedies of any kind for past, current and future infringement, and (iv) rights to collect royalties or other payments under or on account of any of the Patents and/or any of the foregoing (such causes of action and other enforcement rights collectively “**Additional Rights**”) (excluding any Existing Licenses under Section 3.3).

#### 3.3 Existing Licenses.

(a) The transfers of the Assigned Patent Rights pursuant to Section 3.1 and 3.2 are subject to (i) any existing licenses (including transferrable licenses) or license rights (including any previous license or other commitments made to a standards development organization regarding the Patents) executed prior to the Effective Date (“**Existing Licenses**”).

(b) Buyer agrees and covenants that if the Buyer sells, conveys title to, or assigns the right to enforce any of the Assigned Patent Rights to a third party, Buyer will bind the third party as well as the Affiliates of the third party with the language of this Section 3.3. Additionally, Buyer agrees and covenants to oblige any such third party to bind any subsequent transferee to the obligations set forth in this Section 3.3.

#### 3.4 License Back.

(a) Upon Closing, Buyer hereby grants to Seller, for the benefit of Seller and its Affiliates, for the lives of all the Patents, as may be adjusted by applicable law, an irrevocable, non-exclusive, sublicensable (as described below), worldwide, royalty-free, fully paid-up right and license under the Patents, to develop, have developed, make, have made, use, have used, sell, offer to sell, import, license, lease, support, install, service, import, export and otherwise transfer or dispose of, directly or indirectly, any product, service, technology or process and use or practice any method in connection therewith (“**Seller License**”) from the Closing until the last to expire of each of the Patents. The Seller License extends to all Seller Partners, but only to the extent a claim of infringement is alleged to be based in whole or in part on their activities relating to any Seller Products. The Seller License includes a full release from liability for past damages under the Patents of Seller, its Affiliates and Seller Partners.

(b) For the avoidance of doubt, the Seller License includes the right for Seller and/or its Affiliates to grant sublicenses to: (i) users and customers of Seller and/or its Affiliates, in each case to the extent that they use or integrate, directly or indirectly, any product, service, technology or process of Seller or its Affiliates covered, in whole or in part, by a claim in any Patent (singly “**Product**” and collectively “**Products**”), and (ii) any of Seller’s or its Affiliates’ suppliers, distributors, resellers, partners, manufacturers and contractors/subcontractors, in each case, to the extent that such entities make, have made, use, sell, offer for sale, import, lease, support, service, install or otherwise provide, directly or indirectly, any product, service, technology or process covered by a claim, in whole or in part, in any Patent to, by, and/or on behalf of, the Seller or any Affiliate of the Seller, and (iii) to a successor in interest to any Affiliates, business units or product lines of Seller or its Affiliates upon divestment, but only as such Affiliate, business unit or product line exist at the time of any such acquisition, merger or spin out, and the purchaser of or successor in interest to the divested Affiliate, business unit or product line, as applicable, shall not enjoy any protections under the Seller License in respect to its preexisting business, products or services. The Seller License shall also include the right of Seller or its Affiliates to have Products manufactured and rendered by one or more contractors for use and/or subsequent commercialization by and/or on behalf of, the Seller and/or its Affiliates in their ordinary course of business.

(c) Buyer perpetually and irrevocably covenants not to assert any of the Patents against Seller or any Affiliate of Seller. Buyer further covenants not to assert any of the Patents against any Entity for infringement by any products to the extent such Entity sells or otherwise supplies such products to Seller or its Affiliates. Buyer perpetually and irrevocably covenants not to assert any of the Patents against any Entity to the extent that Seller’s or its Affiliates’ products, services, technologies or processes form all or part of the assertion of infringement; for avoidance of doubt, such covenant does not apply where (i) Buyer asserts infringement of any of the Patents against a product, service, technology or process that includes Seller’s or its Affiliates’ products, services, technologies or processes, and (ii) such assertion of infringement does not involve Seller’s or its Affiliates’ products, services, technologies or processes.

(d) Buyer agrees and covenants that if the Buyer sells, conveys title to, or assigns the right to enforce any of the Assigned Patent Rights to a third party, Buyer will bind the third party as well as the Affiliates of the third party with the language of this Section 3.4. Additionally, Buyer agrees and covenants to oblige any such third party to bind any subsequent transferee to the obligations set forth in Section 3.4.

3.5 Reimbursement. Buyer agrees to reimburse Seller, at Seller’s request, for all expenses reasonably incurred by Seller and its Affiliates, either directly or under an obligation to any prior owner of the Patents and its Affiliates, in satisfying any legal obligations or document production required or compelled pursuant to a contractual obligation or by a court of law or other governmental agency as part of a litigation or legal action concerning the Patents and involving Buyer.

#### 4. **REVERSIONARY INTEREST**

4.1 Buyer Must Remain In LOT Network for Two Years. Pursuant to Section 2.3 of this Agreement, Buyer is obligated to maintain itself as a member in good standing of the LOT Network for a period of at least two years from the Closing.

4.2 Reversion to Google. In the event that Buyer fails to maintain itself as a member in good standing in the LOT Network during the two-year period following the Closing other than for reasons related

to the Buyer filing for bankruptcy, all Patents acquired as part of this Agreement by Buyer from Seller ("Reverted Patents") automatically revert back to Seller. Such reversion is automatic and requires no additional consideration on the part of Seller.

4.3 No License Back to Buyer. In the event of a reversion back to Seller under this Section, Google is under no obligation to grant Buyer a license to the Reverted Patents. Any licenses entered into by Buyer purporting to cover the Buyer or its affiliates shall be deemed null and void. Buyer agrees that any licenses it makes after taking ownership of the Patents will be subject to this Provision.

## 5. **ADDITIONAL OBLIGATIONS**

5.1 Further Cooperation. At the reasonable request of Buyer, Seller will execute and deliver an assignment document in substantially the form set forth as Exhibit B, and such other instruments and do and perform such other acts and things as may be reasonably necessary for effecting completely the consummation of the transactions contemplated hereby, including, without limitation, execution, acknowledgment, and recordation of other such papers, as reasonably necessary for fully perfecting and conveying unto Buyer the benefit of the transactions contemplated hereby.

5.2 Common Interest Agreement. Seller and Buyer recognize that they share common interests, including but not limited to common legal interests relating to the scope, validity, and enforceability of the Patents, and in maximizing the value of the Patents for Buyer, on the one hand, as purchaser and for Seller, on the other hand, as licensee and recipient of proceeds of the transaction contemplated by this Agreement (the "Common Interest"). In furtherance of the Common Interest, the parties or their counsel may exchange information (including information exchanged as part of the Deliverables) that is attorney-client privileged or work product, including without limitation communications (whether oral or written), documents, things, mental impressions, factual materials, memoranda, or opinions relating to the Patents (such information, the "Common Interest Information"). The parties acknowledge and agree that they desire and intend by this Agreement that the common interest privilege, to the fullest extent permitted by law, attaches to any Common Interest Information exchanged, and that no such exchange of Common Interest Information between the parties or their counsel shall waive any applicable privilege or protection to such Common Interest Information.

5.3 Disclosure of Licensees. Notwithstanding the provisions of Section 3.3, for a reasonable number of requests, Buyer may ask from Seller whether a certain Entity is licensed under the Patents. Seller will, with reasonable commercial promptness, disclose to Buyer whether such Entity is licensed provided that Seller is not legally prevented from the disclosure (including but not limited to confidentiality obligations towards such licensee).

## 6. **REPRESENTATIONS AND WARRANTIES OF SELLER**

Seller hereby represents and warrants to Buyer as follows that as of the Effective Date and as of Closing:

6.1 Authority. Seller is a company duly formed, validly existing, and in good standing under the laws of the jurisdiction of its formation. Seller has the full power and authority to enter into this Agreement and to carry out its obligations hereunder, including, without limitation, the assignment, or causing the assignment, of the Assigned Patent Rights to Buyer. Prior to Closing, to Seller's knowledge, Seller has not granted any exclusive licenses under any Patents to any third party and has not assigned any Assigned Patent Rights to any third party.

6.2 Title. Seller or its Affiliate owns good and marketable title to the Patents. To Seller's knowledge, the Assigned Patent Rights are free and clear of all liens, claims, mortgages, security interests or other encumbrances, and restrictions, except for the existing licenses and covenants not to sue that are expressly binding on successors to the applicable Patents described in Section 3.3. To Seller's knowledge, there are no actions, suits, investigations, claims, or proceedings threatened, pending, or, to Seller's knowledge, in progress relating in any way to the Assigned Patent Rights, except as disclosed on Exhibit A. To Seller's knowledge, there are no existing binding contracts, agreements, options, commitments, proposals, bids, offers, or rights with, to, or in any person to acquire any of the Assigned Patent Rights.

6.3 Existing Licenses. After the Effective Date, none of Seller or its Affiliates, any prior owner, or any inventor will retain any rights or interest in the Assigned Patent Rights, except as described in Section 3.3 or Section 3.4. None of the licenses or rights in the Patents granted by Seller or its Affiliate is an exclusive grant or right and each such license is nontransferable (except solely in the context of acquisition of the respective licensee and in that case, the scope of each such license or rights in the Patents is limited to the activities of the licensee prior to the acquisition) and non-sublicensable (except to affiliates of the licensee).

6.4 Special Conditions on Certain Standards Essential Patents. To Seller's knowledge, none of the Patents is a de jure standards essential patent subject to any FRAND commitments by Seller. Buyer hereby acknowledges and agrees that, should Buyer discover that any of the Patents reads on or covers, or should Buyer position any of the Patents to read on or cover, any portions of an existing or future de jure standard subject to FRAND commitments (including but not limited to those developed and published by ETSI, IEEE and ITU), then Buyer will be subject to the provisions of that certain Decision & Order of the United States Federal Trade Commission dated July 23, 2013 ("FTC Order") to which Seller is bound. In such event, the Assigned Patent Rights concerning any of the Patents so discovered or positioned are now, or at the relevant time will be, curtailed in accordance with the FTC Order. The FTC Order is posted online and may be retrieved using the following URL:

<https://www.ftc.gov/sites/default/files/documents/cases/2013/07/130724googlemotorolado.pdf>

7. **MISCELLANEOUS**

7.1 DISCLAIMER OF REPRESENTATIONS AND WARRANTIES. NEITHER PARTY MAKES ANY REPRESENTATION OR WARRANTY EXCEPT FOR THEIR RESPECTIVE REPRESENTATIONS AND WARRANTIES SET FORTH IN SECTION 5, AND EACH PARTY DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

7.2 LIMITATION OF LIABILITY. SELLER'S TOTAL LIABILITY UNDER THIS AGREEMENT WILL NOT EXCEED FIFTY THOUSAND U.S. DOLLARS (US\$50,000). BUYER'S TOTAL LIABILITY UNDER THIS AGREEMENT WILL NOT EXCEED THE REASONABLE MARKET VALUE OF THE ASSIGNED PATENT RIGHTS IN ADDITION TO ANY AMOUNTS THAT MAY BE DUE TO SELLER PURSUANT TO SECTION 2.4. THE PARTIES ACKNOWLEDGE THAT THE LIMITATIONS ON POTENTIAL LIABILITIES SET FORTH IN THIS SECTION 6.2 WERE AN ESSENTIAL ELEMENT IN SETTING CONSIDERATION UNDER THIS AGREEMENT.

7.3 LIMITATION ON CONSEQUENTIAL DAMAGES. NEITHER PARTY WILL HAVE ANY OBLIGATION OR LIABILITY (WHETHER IN CONTRACT, WARRANTY, TORT (INCLUDING NEGLIGENCE) OR OTHERWISE, AND NOTWITHSTANDING ANY FAULT, NEGLIGENCE (WHETHER ACTIVE, PASSIVE OR IMPUTED), REPRESENTATION, STRICT LIABILITY OR PRODUCT LIABILITY), FOR COVER OR FOR ANY INCIDENTAL, INDIRECT, CONSEQUENTIAL, MULTIPLIED, PUNITIVE, SPECIAL, OR EXEMPLARY DAMAGES OR LOSS OF REVENUE, PROFIT, SAVINGS OR BUSINESS ARISING FROM OR OTHERWISE RELATED TO THIS AGREEMENT, EVEN IF A PARTY OR ITS REPRESENTATIVES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THE PARTIES ACKNOWLEDGE THAT THESE EXCLUSIONS OF POTENTIAL DAMAGES WERE AN ESSENTIAL ELEMENT IN SETTING CONSIDERATION UNDER THIS AGREEMENT.

7.4 Compliance With Laws. Notwithstanding anything contained in this Agreement to the contrary, the obligations of the parties with respect to the consummation of the transactions contemplated by this Agreement shall be subject to all laws, present and future, of any government having jurisdiction over the parties and this transaction, and to orders, regulations, directions or requests of any such government.

7.5 Confidentiality of Terms. Buyer will keep the terms and existence of this Agreement and the identities of the parties hereto and their Affiliates confidential and will not now or hereafter divulge any of such information to any third party except (a) with the prior written consent of Seller; (b) as otherwise may be required by law or legal process, including, without limitation, in confidence to legal and financial advisors in their capacity of advising Buyer in such matters; (c) during the course of litigation, so long as the disclosure of such terms and conditions is restricted in the same manner as is the confidential information of other litigating parties; (d) in confidence to its legal counsel, accountants, insurers, and their advisors solely in connection with complying with its obligations under this Agreement; (e) in order to perfect Buyer's interest in the Assigned Patent Rights with any governmental agency (including, without limitation, recording the Executed Assignments of Exhibit B in any governmental patent office); (f) to inform Buyer's existing licensees or prospective licensees of the Seller's assignment to Buyer of the assets assigned by this Agreement, but only to the minimum extent of disclosure required for such purpose; or (g) to enforce Buyer's right, title, and interest in and to the Assigned Patent Rights; provided that, in (b) and (c) above, (i) to the extent permitted by law, Buyer will use all legitimate and legal means available to minimize the disclosure to third parties, including, without limitation, seeking a confidential treatment request or protective order whenever appropriate or available; and (ii) Buyer will provide the other party with at least ten (10) calendar days' prior written notice of such disclosure. Seller may disclose the terms and existence of this Agreement, and the identities of the parties hereto and their Affiliates, to any third party at Seller's sole discretion. In the event of any breach or default, threatened or otherwise, by Buyer under this Section, the parties acknowledge and agree that damages alone would be insufficient to compensate for any such breach or default and that irreparable harm would result from such breach or default. Consequently, in the event of any such breach or default, or any threat of such breach or default by Buyer, then Seller will be entitled to temporary or permanent injunctive relief, specific performance and such other equitable relief as may be appropriate in the circumstances in order to restrain or enjoin such breach or default. These remedies will not be the exclusive remedies for violation of the terms of the confidentiality obligations contained in this Section, but will be in addition to all other remedies available to the parties at law or in equity.

7.6 Governing Law; Venue/Jurisdiction. This Agreement should be interpreted, enforced, construed and controlled by the laws of the State of California, without reference to principle of conflicts or choice of law provisions. The exclusive jurisdiction for any court action or proceeding arising out of or related to this Agreement shall be the federal or state courts of Santa Clara County, California, and each Party hereby consents to the jurisdiction of those courts.

7.11 Termination. In the event that the Closing has not occurred within sixty (60) calendar days following the Effective Date, either party may terminate this Agreement by written notice to the other party. No amendments or modifications will be effective unless in a writing signed by authorized representatives of both parties.
