Woven Fan Bookmark

28 pairs
the pricking is 1/10 inch diagonal so will
work with threads that fall within the 28-40
wpc range.

The main feature of this piece is the woven fan so you can easily change the roseground to your favourite version or even replace the roseground trail with a spider trail (see next page for pattern and working diagram)

How you finish off the bookmark is up to you. In the sample I carried the threads down to the tip before wrapping the tail.
