www.eijerkamp.com

Dear pigeon friends,

The year 2015 is for us a year of celebration. It was in 1950, exactly 65 years ago, I started homing pigeons and from the very beginning I knew what I wanted; to win races with the best birds available on the earth. Highest quality pigeons has always been the standard for us and it resulted in a long period of success... Evert-Jan is also a true pigeon fancier for already over 40 years, so together we represent more than 100 years as fanciers. Something we are very proud of.

We could not have had a better present for the milestone than that given to us by our pigeons. The season of 2015 was maybe the best we ever had. 14 massive wins and numerous NPO top 10 positions led to many enthusiastic reactions; the loft managers under the supervision of Evert-Jan and myself did a supreme job... but especially the pigeons did a great job. A lifetime of investment in the best pigeons available and only breeding with great champions or their direct offspring has been our key to so much success.

Our criteria for top pigeons were outlined in the Eijerkamp Pigeon Quality Criteria (EPQC). Our standard to determine quality of racing pigeons and developed by Evert-Jan, who is the brain behind the breeding strategy at our premises, Greenfield Stud. We reap the fruits from the investments and the breeding strategy, but with us hundreds of fanciers in all corners of the world achieve good results thanks to Eijerkamp pigeons. That was one of my goals when I started in the pigeon sport; lifting the international community of pigeon fanciers to a higher level.

In the success of our breeding strategy, our old lines of Gebr. Janssen and Van Loon play a key role. Many winners worldwide descend from the old champions of these legendary names. Of course, our Leo Heremans colony with magical names such as Den Euro, Jackpot and Nieuwe Olympiade also meant an enormous boost for racing performances and show again and again that these bloodlines are to dominate for generations more to come. As treasure-keepers of the Heremans / Ceusters strain we carefully preserve these bloodlines for the future.

In this year of celebration we will offer small groups of carefully selected pigeons for auction on PIPA. To start in October, with 12 unique youngsters from the bloodlines that have dominated the so successful 2015 season. Many pigeons we sold on PIPA have had success in breeding worldwide; we are sure the ones we will offer this breeding season have the potential to bring a huge quality boost to all breeding lofts!

With kind regards,

Hans Eijerkamp
