

Perils of the throwaway one liners

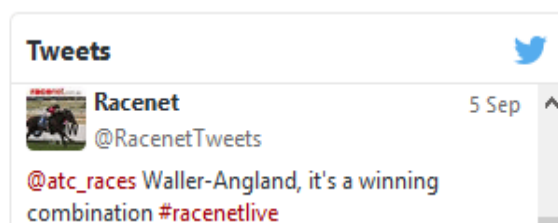

A series of articles that sets the punting public straight by presenting the statistical reality behind the never ending statements made in the public domain.

Peril 1

This tweet was recently posted by Racenet. Whilst the Tweet expresses an opinion, the wording used could leave many punters believing that such information is factual.

A simple click in our highly acclaimed R2W Axis database shows the real statistics.

Tye Angland 149 runs, SR 12.8% **-17.13%** POT

So what are the profitable Waller-jockey combinations? That is the intelligent question to ask! Armed with the right information, R2W Axis can save you countless amounts of money and put you on the path to becoming a long term winning punter. Whilst pondering that, here are a couple of jockeys that currently make a profitable winning combination with trainer C Waller.

Jockey	Runs	Win Strike rate	POT
Blake Shinn	138	24.6%	+ 19.09%
Tommy Berry	66	21.2%	+ 30.63%

Every trainer represents the same opportunity! Penalise the overbet and the overvalued and focus on those that are profitable. Call us today for more information on the R2W Axis database and to quote a leading prominent jockey manager and punter "R2W... Can't live without it".
