Honesty means: "I show and tell the truth!" Honest people don't lie. They don't cheat and they don't steal. Honest people play fairly and ask permission before they take something that doesn't belong to them. How do you show that you are an honest person? Read about our friends below. Then color in the circle by the answer that you think best describes what our friend is doing in the picture. Next, answer whether our friend was being honest.
