BAREBACK FOOTWEAR

We take great pride and pleasure in welcoming you to the Bareback Footwear collection. In 2007 our family decided to create our own range of footwear with a difference, made using the highest levels of craftsmanship with the best possible Italian leathers and suedes while remaining affordable.

We sourced our factory and workforce in Portugal and finally in 2010 launched the core range of Bareback Boots with great success.

Since Bareback Footwear's launch we have spent our time touring the UK, reaching every corner of the country appearing at all the major shows and equestrian events to spread the word and solidify Bareback Footwear's reputation of exceptional quality and service. Our collection has grown from its humble origins to offering over 83 styles, providing something perfect for everyone.
